EDUCATION

Nova School of Business and Economics — **Lisbon, Portugal**
Bachelor of Science in Management — *Sep 2025 – Jun 2028*

- Santander Excellence Award 2025, 2-Year Tuition Scholarship

Lycée Français International de Porto — **Porto, Portugal**
French Baccalauréat — *Sep 2022 – Jun 2025*

- High Honors, 19/20 Economics, 19.4/20 Further Economics

WORK EXPERIENCE

NOS — ***Lisbon*, Portugal**
Project X Innovation Sprint — *Sep 2025 – Nov 2025*

- Selected as the sole bachelor's student on Nova SBE's flagship innovation sprint with NOS (€3.74B EV), developing a sustainability strategy for the core business and customer app
- Led market discovery across 11 customer interviews, uncovering near-universal unawareness of NOS's sustainability initiatives even among long-tenure customers
- Translated the finding into the core design requirement for the proposal: active in-app engagement rather than passive communication
- Designed a gamification-driven app strategy spanning sustainability challenges, rewards and ESG initiatives; presented the lead proposal to NOS sustainability and product leadership, securing an internship offer

EXTRACURRICULAR ACTIVITIES

Portfolio Management Club — **Lisbon, Portugal**
Investment Analyst — *Jan 2026 – Present*

- Building the DCF for a pitch on EnerSys (industrial batteries and energy storage), using Bloomberg
- Built the industry and competitive analysis for a Magnite pitch, which fed the team's valuation ($17.4–$25.3 DCF fair value vs $13.42 share price), and presented the thesis to the Investment Committee; shares have since doubled from the recommendation-date price
- Worked on a Verizon company analysis and Nomad Foods earnings coverage
- Evaluated 10+ investment proposals within a $1.49M simulated fund, defending assumptions in committee and voting alongside portfolio managers

Growth Capital Partners — **Lisbon, Portugal**
Club Project (upcoming) — *Oct 2026 – Nov 2026*

- Will search for a target company for their blue economy fund, with a midterm presentation in late October and a final presentation in November

Personal Project — **Lisbon, Portugal**
AI Website Development — *Jun 2026 – Present*

- Used AI development tools to build and ship two live websites, a commercial site for a family wine business and a personal portfolio, managing scope, design direction and deployment
